Subject:

IT-infrastructure and data security of Memory Institution.
Special solutions for different categories of users.
Monetization

II International Festival of Digitized Heritage Content
DIGITALLY-FEST-2017

November 21-23, 2017, Kyiv, Ukraine

State Polytechnic Museum at The National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute" will hold the annual scientific and practical seminar, the fifth in the **series of informational and training events on the subject of digitizing of historical, cultural and scientific Heritage** stored in archives, museums, libraries and private collections, and the second **festival of digitized content.**

The objective of these events is to familiarize professionals with advanced international practices and technologies of digitizing, digitized content creation, formation and integration of digital collections, distribution, using and access methods.

The format: lectures, presentations, master classes, trainings, anti-conference: professional dialogues and consultations, discussions oriented on the research of appropriate technological solutions as well as demonstrations and showing of online resources and services with the digitized collections content.

Moderators and spokespersons are **highly experienced foreign and local experts** on digitizing and related areas of information and communication technologies.

Participants are welcome: the experts and the heads of archives, museums, libraries, publishers, the owners of private collections, the scientists and everyone wishing to acquire knowledge and skills in the field of digitizing technologies.

During the 5th seminar of the series of events "DIGITIZED HERITAGE"
will be overviewed the bases of organization of informational-technological infrastructure of Memory Facility and the means of account data and content security. The questions of digital content creation and development of special services for different categories of users, including children, physically challenged users, different target users will be also included in the discussion. The participants will also discuss the issues of monetization of digital collections and present its successful examples.

On the festival DIGITALLY-FEST-2017 there will be shown modern online representations of the digitized content of Memory Institutions, private and other collections, the advanced experience and successful projects on the presentation of world and national heritage in digital content.
The owners of digital collections and developers of online resources of Digitized Heritage are invited to demonstrate their works.

Partners and sponsors of the events' series "DIGITIZED HERITAGE" and all interested in the united digital development and promoting are invited to an open **Partners' meeting.**

The participants traditionally will be invited to visit the KPI data Centre and museum exhibition.

On completion the participants will receive the Certificate
